

## Sensor Head SKL-A1 IR

The Sensor Head SKL-A1 IR is used to connect the BFI Fiber Optic Cable to specific gas turbines. The flange is specially designed for three-hole mounting systems.

### 1 | Technical data

Spectral sensitivity	300 nm to 2700 nm
Angel of view	2.7°
Material	stainless steel 1.4301
Flame orientation	axial
Operating temperature	-60 °C to +400 °C
Dimensions	75 mm x 89.5 mm
Pitch circle diameter	60 mm
Mounting screw size	M7
FOC connector	M30
Weight	approx. 0.75 kg
